APPENDIX

Revenue Act of 1936, c. 690, 49 Stat. 1648:

SEC. 501. TAX ON NET INCOME FROM CERTAIN SOURCES.

(a) The following taxes shall be levied, collected, and paid for each taxable year (in addition to any other tax on net income), upon the net income of every person which arises from the sources specified below:

(1) A tax equal to 80 per centum of that portion of the net income from the sale of articles with respect to which a Federal excise tax was imposed on such person but not paid which is attributable to shifting to others to any extent the burden of such Federal excise tax and which does not exceed such person's net income for the entire taxable year from the sale of articles with respect to which such Federal excise tax was imposed.

(2) A tax equal to 80 per centum of the net income from reimbursement received by such person from his vendors of amounts representing Federal excise-tax burdens included in prices paid by such person to such vendors, to the extent that such net income does not exceed the amount of such Federal excise-tax burden which such person in turn shifted to his vendees.

(3) A tax equal to 80 per centum of the net income from refunds or credits to such person from the United States of Federal excise taxes erroneously or illegally collected with respect to any articles, to the extent that such net income does not exceed

the amount of the burden of such Federal excise taxes with respect to such articles which such person shifted to others.

(b) The net income (specified in subsection (a) (1)) from the sale of articles with respect to which the Federal excise tax was not paid, and the net income specified in subsection (a) (2) or (3), shall not include the net income from the sale of any article, from reimbursement with respect to any article, or from refund or credit of Federal excise tax with respect to any article (1) if such article (or the articles processed therefrom) were not sold by the taxpayer on or before the date of the termination of the Federal excise tax; (2) if the taxpayer made a tax adjustment with respect to such article (or the articles processed therefrom) with his vendee; or (3) if under the terms of any statute the taxpayer would have been entitled to a refund from the United States of the Federal excise tax with respect to the article otherwise than as an erroneous or illegal collection (assuming, in case the tax was not paid, that it had been paid).

(c) The net income from the sales specified in subsection (a) (1) shall be computed as follows:

(1) From the gross income from such sales there shall be deducted the allocable portion of the deductions from gross income for the taxable year which are allowable under the applicable Revenue Act; or

(2) If the taxpayer so elects by filing his return on such basis, the total net income for the taxable year from the sale of all articles with respect to which each Federal excise tax was imposed (computed by deducting from the gross income from such sales the allocable portion of the deduc-

tions from gross income which are allowable under the applicable Revenue Act, but without deduction of the amount of such Federal excise tax which was paid or of the amount of reimbursement to purchasers with respect to such Federal excise tax) shall be divided by the total quantity of such articles sold during the taxable year and the quotient shall be multiplied by the quantity of such articles involved in the sales specified in subsection (a) (1). Such quantities shall be expressed in terms of the unit on the basis of which the Federal excise tax was imposed.

For the purposes of this section the proper apportionment and allocation of deductions with respect to gross income shall be determined under rules and regulations prescribed by the Commissioner with the approval of the Secretary.

(d) The net income from reimbursement or refunds specified in subsection (a) (2) or (3) shall be computed as follows: From the total payment or accrual (1) of reimbursement to the taxpayer from vendors for amounts representing Federal excise tax burdens included in prices paid by the taxpayer to such vendors or (2) of refunds or credits to the taxpayer of Federal excise taxes erroneously or illegally collected, there shall be deducted the expenses and fees reasonably incurred in obtaining such reimbursement or refunds.

(e) For the purposes of subsection (a) (1), (2), and (3), the extent to which the taxpayer shifted to others the burden of a Federal excise tax shall be presumed to be an amount computed as follows:

(1) From the selling price of the articles there shall be deducted the sum of (A) the cost of such articles plus (B) the average

margin with respect to the quantity involved; or

(2) If the taxpayer so elects by filing his return on such basis, from the aggregate selling price of all articles with respect to which such Federal excise tax was imposed and which were sold by him during the taxable year (computed without deduction of reimbursement to purchasers with respect to such Federal excise tax) there shall be deducted the aggregate cost of such articles, and the difference shall be reduced to a margin per unit in terms of the basis on which the Federal excise tax was imposed. The excess of such margin per unit over the average margin (computed for the same unit) shall be multiplied by the number of such units represented by the articles with respect to which the computation is being made; but

(3) In no case shall the extent to which the taxpayer shifted to others the burden of the Federal excise tax with respect to the articles be deemed to exceed the amount of such tax with respect to such articles minus (A) the portion of the amount of the Federal excise tax (or of the reimbursement specified in subsection (a) (2)) with respect to the articles which is paid or credited by the taxpayer to any purchasers as specified in subsection (f) (3) and minus (B) the amount of any increase in the tax under section 602 of the Revenue Act of 1932 for which the taxpayer under this section became liable as the result of the nonpayment or refund of the Federal excise tax with respect to the articles.

(f) As used in this section—

(1) The term "margin" means the difference between the selling price of articles and the cost thereof, and the term "aver-

age margin" means the average difference between the selling price and the cost of similar articles sold by the taxpayer during his six taxable years preceding the initial imposition of the Federal excise tax in question, except that if during any part of such six-year period the taxpayer was not in business, or if his records for any part of such period are so inadequate as not to furnish satisfactory data, the average margin of the taxpayer for such part of such period shall, when necessary for a fair comparison, be deemed to be the average margin, as determined by the Commissioner, of representative concerns engaged in a similar business and similarly circumstanced.

(2) The term "cost" means, in the case of articles manufactured or produced by the taxpayer, the cost to the taxpayer of materials entering into the articles; or, in the case of articles purchased by the taxpayer for resale, the price paid by him for such articles (reduced in both cases by the amount for which he is reimbursed by his vendor).

(3) The term "selling price" means selling price minus (A) amounts subsequently paid or credited to the purchaser on or before June 1, 1936, or thereafter in the bona fide settlement of a written agreement entered into on or before March 3, 1936, as reimbursement for the amount included in such price on account of a Federal excise tax; and minus (B) the allocable portion of any professional fees and expenses of litigation incurred in securing the refund or preventing the collection of the Federal excise tax, not to exceed 10 per centum of the amount of such tax.

(g) In determining costs, selling prices, and net income, the taxpayer shall, unless otherwise shown, be deemed to have sold articles in the order in which they were manufactured, produced, or acquired. Where the taxpayer's records do not adequately establish the quantity of a commodity taxable under the Agricultural Adjustment Act, as amended, entering into articles sold by him, such quantities shall be computed by the use of the conversion factors prescribed in regulations under such Act, as amended.

(h) If the taxpayer made any purchase or sale otherwise than through an arm's-length transaction, and at a price other than the fair market price, the Commissioner may determine the purchase or sale price to be that for which such purchases or sales were at that time made in the ordinary course of trade.

(i) Either the taxpayer or the Commissioner may rebut the presumption established by subsection (e) by proof of the actual extent to which the taxpayer shifted to others the burden of the Federal excise tax. Such proof may include, but shall not be limited to:

(1) Proof that the change or lack of change in the margin was due to changes in factors other than the tax. Such factors shall include any clearly shown change (A) in the type or grade of article or materials, or (B) in costs of production. If the taxpayer asserts that the burden of the tax was borne by him while the burden of any other increased cost was shifted to others, the Commissioner shall determine, from the respective effective dates of the tax and of the other increase in cost as

compared with the date of the change in margin, and from the general experience of the industry, whether the tax or the increase in other cost was shifted to others. If the Commissioner determines that the change in margin was due in part to the tax and in part to the increase in other cost, he shall apportion the change in margin between them.

(2) Proof that the taxpayer modified contracts of sale, or adopted a new contract of sale, to reflect the initiation, termination, or change in amount of the Federal excise tax, or at any such time changed the sale price of the article (including the effect of a change in size, package, discount terms, or any other merchandising practice) by substantially the amount of the tax or change therein, or at any time billed the tax as a separate item to any vendee or indicated by any writing that the sale price included the amount of the tax, or contracted to refund any part of the sale price in the event of recovery of the tax or decision of its invalidity; but the taxpayer may establish that such acts were caused by factors other than the tax, or that they do not represent his practice during the period in which the articles in question were sold.

(j) As used in this section—

(1) The term "Federal excise tax" means a tax or exaction with respect to the sale, lease, manufacture, production, processing, ginning, importation, transportation, refining, recovery, or holding for sale or other disposition, of commodities or articles, provided for by any Federal statute, whether valid or invalid, if denominated a "tax" by such statute. A Federal excise tax shall be deemed to have been imposed with respect to

an article if it was imposed with respect to (or with respect to the processing of) any commodity or other article, from which such article was processed.

(2) The term "date of the termination of the Federal excise tax" means, in the case of a Federal excise tax held invalid by a decision of the Supreme Court, the date of such decision.

(3) The term "refund or credit" does not include a refund or credit made in accordance with the provisions and limitations set forth in Title VII of this Act, or in section 621 (d) of the Revenue Act of 1932.

(4) The term "tax adjustment" means a repayment or credit by the taxpayer to his vendee of an amount equal to the Federal excise tax with respect to an article (less reasonable expense to the vendor in connection with the nonpayment or recovery by him of the amount of such tax and in connection with the making of such repayment or credit) if such repayment or credit is made on or before June 1, 1936, or thereafter in the bona fide settlement of a written agreement entered into on or before March 3, 1936.

(5) The term "taxpayer" means a person subject to a tax imposed by this section.

(k) All references in this section to the purchase or sale (or to parties to the sale) of articles with respect to which a Federal excise tax was imposed shall be deemed to include the purchase or sale (or parties to the sale) of services with respect to which a Federal excise tax was imposed, and for the purposes of subsection (a) the extent to which the taxpayer shifted to others the burden of such Federal excise tax with respect to such services shall be presumed to

be an amount computed as follows: From the selling price of the services there shall be deducted the average price received by the taxpayer for performing similar services during the six taxable years preceding the initial imposition of the Federal excise tax in question. The balance (to the extent that it does not exceed the amount of such Federal excise tax with respect to such services minus any payments or credits with respect to the services made to purchasers as specified in subsection (f) (3)) shall be the extent to which the taxpayer shifted the burden of such Federal excise tax to others. If during any part of such six-year period the taxpayer was not in business, or if his records for any part of such period are so inadequate as not to furnish satisfactory data, the average price of the taxpayer for such part of such period shall, when necessary for a fair comparison, be deemed to be the average price, as determined by the Commissioner, of representative concerns engaged in a similar business and similarly circumstanced. The presumption established by this subsection may be rebutted by proof of the character described in subsection (i).

(l) The taxes imposed by subsection (a) shall be imposed on the net income from the sources specified therein, regardless of any loss arising from the other transactions of the taxpayer, and regardless of whether the taxpayer had a taxable net income (under the income-tax provisions of the applicable Revenue Act) for the taxable year as a whole; except that if such application of the tax imposed by subsection (a) is held invalid, the tax under subsection (a) shall apply to that portion of the taxpayer's en-

tire net income for the taxable year which is attributable to the net income from the sources specified in such subsection.

SEC. 502. CREDIT FOR OTHER TAXES ON INCOME.

There shall be credited against the total amount of the taxes imposed by this title an amount equivalent to the excess of—

(a) The amount of the other Federal income and excess-profits taxes payable by the taxpayer for the taxable year, over

(b) The amount of the other Federal income and excess-profits taxes which would have been payable by the taxpayer for the taxable year if his net income were decreased by the amount of net income taxable under this title.

SEC. 504. TAXABLE YEARS TO WHICH TITLE IS APPLICABLE.

The taxes imposed by this title shall apply only with respect to taxable years ending during the calendar year 1935 and to subsequent taxable years.
